

## Llamas

Earth Angels Llamas I have loved llamas since seeing one at a petting zoo many years ago. I fell in love with their inquisitive nature and beautiful eyes! Since 1999 I have shared my life with llamas and have participated in all aspects of the llama industry. I have had a small program and have been fortunate to be able to focus on improving the quality of my offspring by accessing new suri genetics. My husband and I have shown llamas and have enjoyed success in the ring. We have also sold llamas at LFA and enjoyed success there as well. In 2007 our yearling female earth Angels Evangeline was one of the high selling females. We enjoy meeting new people and sharing our best with herds around North America.
